MUM&DAD

BIO

Mum & Dad is a Belgian Tech-House and Minimal Techno duo with a story unlike any other. After more than twenty years in traditional careers, Marie-Pierre and Gerald chose to reinvent themselves completely and dedicate their lives to the music that has been part of their bond since the beginning.

As parents of Lauren, their 17-year-old daughter, they bring a rare sense of maturity, balance and authenticity to the dancefloor. Their sound draws from the groove-driven tech-house and stripped-back minimal scene, blending tight rhythms, crisp textures and warm, hypnotic basslines inspired by labels such as Hot Creations, EASTENDERZ and La Zic.

Known for their precision and instinctive musical storytelling, Mum & Dad deliver fluid, tension-driven sets designed to create connection and keep the dancefloor locked in.

Beyond their artistic project, they created the Mum & Dad Foundation, donating performance fees to support scholarships for students in need transforming every show into a meaningful act.

With a fast-growing presence and a clear artistic vision, Mum & Dad embody a rare message in today's scene: it's never too late to start again!
